Ron Parsons will talk to us about His Recent Trip to Photograph Australian Orchids

Our speaker is the renowned Ron Parsons. Ron's botanical knowledge is extraordinary! Whether it's orchids or mariposa lilies (calochortus) or anything in between, he's the go-to guy! Ron Parsons is considered by many to be one of the finest flower photographers in the United States. His photography and encyclopedic knowledge of orchids is known both nationally and internationally. He has been photographing orchids, wildflowers, and almost every other kind of plant for over 25 years, and has a slide collection that numbers well over 80,000 slides! He went "digital" just over a year ago, and in this short time has taken thousands of photos orchids, wildflowers and other rare plants. See the orchid photo gallery for some of his new digital photographs. Ron loves to travel, photograph orchids and wildflowers in situ, visit orchid and other plant enthusiasts collections, and most of all, to take photographs of plants and flowers that he likes. Ron also knows the very best spots to find native California orchids so keep a lookout for announcements of his tours.
