and how to maximize flowering

Carol will discuss the Dendrobiums most commonly found in hobbyist collections, and their care heading into winter.

She will cover most of the sections of this large and diverse genus, including tips once the flowers have bloomed. Hopefully, we will learn enough that the spring flowering season will be sensational.

DVOS is moving in 2015

Our current meeting place, the Contra Costa Water District Board room, will not be available to us next year due to earthquake retrofitting. Beginning in January, we will meet at the newly rebuilt Pleasant Hill Community Center in the McHale Room. Some of you will remember this as the location where we held our Fall Show for many years prior to the rebuild.

In addition to changing our location, we will also be changing from the second Thursday to the third Thursday of each month. The Community Center is located at 320 Civic Dr. in Pleasant Hill (near the Police station and the YMCA.)

From the Desk of Laura Newton Chair- Membership and Affiliated Societies Committee

AOS Orchids Magazine has announced that the annual supplement for this year will be on Stanhopea by Rudolph Jenny. This is one of my favorite genera. The flowers are quite unique and have a very elaborate lip that is designed to accommodate a very specific bee for pollination. If you are not already a member,

now is the time to join, so that you will receive your free supplement with the December issue. It is just one of the many perks of membership in the American Orchid Society.

There are so many great articles in this month's Orchids Magazine, that it is hard to pick just one to recommend...

Sue Bottom's article on "Repotting Bifoliate Cattleyas" is a must read if you grow them. I have never tried this particular method before, but it looks like it is just what these sometimes hard-to-grow plants require.

I also enjoyed learning about "Building an Orchid Tower" from Daniel Heyer, his step-by-step guide looks like something that is easy enough for everyone to do, and who doesn't need another place to store orchids?
