## Our June Meeting Speakers...

Our members Tom Pickford and Liz Charlton will demonstrate how and why to mount orchids on a variety of surfaces.

Plant table  
will be  
provided by  
California  
Orchids.

## President's Message:

Orchid Friends:

DVOS Meetings are comprised of speakers, raffle ticket sales, a snack break, Show and Tell and ends with the actual raffle. Because we have several activities at our meetings, it is important that we start on time. The meeting needs to be over by 10PM and members should be on their way home shortly thereafter. The board still has to clean up everything and return the tables to their storage closet. The raffle table often holds plants that we just learned about, so members are eager to win. It is not as much fun when we are rushed during the actual picking of the winning tickets.

**To facilitate these objectives, please bring your plants to the display tables by 7:10.** Please be mindful of the other plants on the tables. No one wants broken branches or lost flowers. If your plant is very large, set it on the floor under the table. If you want to, you can take home a few cards and fill them out before coming to the meeting. That will help a lot. We need to have everyone in their seats by 7:15 so we can start the meeting. *Be sure your plants are bug free or they won't be allowed on the table.*

The guest speakers are paid by the club each month and we don't like to miss out on important tidbits of knowledge and members often have questions. We want to get our money's worth! Snack time break should be 15 minutes including raffle ticket purchasing. The Show and Tell section of the meeting is sometimes extensive and we want every plant to have its time under the lights.

If everyone helps with this, the meetings will be efficient and more enjoyable.

Marcia

## Potting Party at Marcia's House

Saturday, June 22, at 10 AM, we will meet at her house  
(1421 Park Glen Court, Concord 94521)

It will also be a pot luck snack party... since it usually goes on for a couple of hours!

This will be a chance to see how repotting is correctly done. It's a hands-on learning experience. There will be an ongoing discussion during the repotting and you'll be able to get answers to your every question!

DVOS will supply necessary materials for the repotting activity.
